EXPERIENCE

Infynow Software solution – Intern

December 2023 - March 2024, Belagavi

During this time, I actively participated in a project focused on Web Application Development. I successfully accomplished all assigned tasks, contributing to the development process and collaborating with the team, which allowed me to demonstrate both my technical proficiency and teamwork skills.

SUMMARY

Passionate Full Stack Developer with a strong foundation in software development and problem-solving. Experienced in designing and building scalable, high-performance applications that enhance user experience. Adept at collaborating in dynamic environments, learning new technologies, and delivering innovative solutions. Committed to continuous growth and contributing to impactful projects.

PROJECT

Job_search_portal

github.com/kumVij/Job_search_portal • January 2025 - February 2025

- Developed a **MERN stack** job portal with secure user authentication and real-time job tracking.
- Implemented **JWT authentication** for secure user login and access control.
- Integrated **Cloudinary API** for seamless resume and profile photo management.
- Designed an **intuitive UI** for job seekers to apply and for recruiters to manage applications.
- Optimized **MongoDB storage** for efficient data handling and retrieval.

Diabetes Type Predictor

github.com/kumVij/Diabeties-type-Predictor • January 2024 – July 2024

- Developed a web-based application to predict diabetes type and provide personalized recommendations for risk management.
- Built a full-stack system using Flask (backend) and HTML, CSS, JavaScript (frontend) for seamless functionality.
- Collected and processed medical datasets from hospitals and Kaggle to improve model accuracy and reliability.
- Implemented a Random Forest algorithm, achieving 95% classification accuracy for precise diabetes prediction.
- Designed an intuitive, responsive user interface for efficient data input and real-time health insights.

EDUCATION

Master of Technology (M.Tech)

Computer Science and Engineering • Peoples Education Society (PES) college • Bengaluru • 2026

Bachelor of Engineering

Computer science and Engineering • KLS Gogte Institute of Technology • Belagavi • 2024 • 8.44

CERTIFICATIONS

HackerRank Problem Solving Skills

HackerRank • 2024

Full Stack Java Developer

Udemy • 2023

Covered Java, Spring Boot, JSP, JavaScript, and React for modern web development. - Validated practical skills in full-stack application development.

Node.js Certification - Master the Fundamentals

Scaler • 2023

SKILLS

Frontend: HTML, CSS, JavaScript, React.js

Frameworks: Node.js, Angular JS

Programming language : C, Java, Python

Database Technologies: SQL, MongoDB.

Tools & Platforms: GitHub, Eclipse, VS Code, Postman, IntelliJ IDEA, Docker, Kubernetes.

Concepts: Object-Oriented Programming (OOP), Data Structures and Algorithms (DSA), Linux.
